

Transfer Guide:

CCC AA in Academic Transfer to NWU BS in Exercise Science (Master of Athletic Training “3+2”)

This Pathway is designed to help students earning an Associate of Arts degree at Central Community College transfer into the Bachelor of Science in Exercise Science (pre-AT) at Nebraska Wesleyan University. Students are on track to apply to the Master of Athletic Training (MAT) program during their first year at NWU, and once admitted will begin graduate courses their fourth year. Students who follow this pathway are in position to complete a Bachelor of Science and Master of Athletic Training in three academic years after transferring.

Some guidelines for this Pathway:

- Students must have a cumulative college GPA above 2.0 to be accepted to NWU.
 - Students will need a minimum cumulative (all college) 3.0 GPA to apply for the MAT.
- Students must complete the Pathway coursework with grades of C- or higher in each course.
 - Specified MAT prerequisite courses require grades of C or higher (designated with * in the guide).
- Students must complete 50 athletic training observational hours supervised by a certified athletic trainer before beginning the Master of Athletic Training Program.
 - These hours can be completed after transferring to NWU if needed.
 - NWU strongly encourages students to complete these courses before transferring:
 - BIOS 2250 General Anatomy and Physiology I
 - BIOS 2260 General Anatomy and Physiology II

General Transfer Policies:

- CCC Courses with numbers below 1000 will not transfer.
- Students who follow this pathway will transfer a total 63 semester credit hours to NWU.
- NWU can transfer a maximum of 64 semester credit hours from community colleges.
- Students must complete a minimum of 126 semester credit hours to earn a bachelor’s degree from NWU. Some of these 126 hours will also count toward the master’s degree. Transferrable courses which do not meet degree requirements (aka “elective credits”) still count toward this 126 and are marked on the pathway as “credit toward graduation.”
