Transfer Guide: SCC AS in Health Science to NWU BS in Exercise Science (Master of Athletic Training “3+2”)

This Guide is designed to help students earning an Associate of Science in Health Science degree at Southeast Community College transfer into the Bachelor of Science in Exercise Science (pre-AT) at Nebraska Wesleyan University. Students are on track to apply to the Master of Athletic Training (MAT) program during their first year at NWU, and once admitted will begin taking graduate-level courses their fourth year. Students who follow this guide are in a position to complete a Bachelor of Science and Master of Athletic Training in three academic years after transferring. Those following this Guide who decide not to seek the MAT can complete a BS in Exercise Science in two years after transferring.

Guidelines for this Guide:

- Students who follow this guide will transfer a total of 61 semester credit hours to NWU.
- Applicants must have a cumulative college GPA above 2.0 to be accepted to NWU.
 - A minimum cumulative (all college) 3.0 GPA is required to apply for the MAT.
- Students must complete the Guide coursework with grades of C- or higher in each course.
 - Specified MAT prerequisite courses require grades of C or higher (designated with * in the guide).
- Students must complete 50 athletic training observational hours supervised by a certified athletic trainer before beginning the Master of Athletic Training Program.
 - These hours can be completed after transferring to NWU if needed.

General Transfer Policies:

- NWU can transfer a maximum of 64 semester credit hours from community colleges.
- SCC Courses with numbers below 1000 will not transfer.
- Students must complete a minimum of 126 semester credit hours to earn a bachelor’s degree from NWU. Some of these 126 hours will also count toward the master’s degree. Transferrable courses which do not meet degree requirements (aka “elective credits”) still count toward this 126 and are marked on the guide as “credit toward graduation.”
- Students should work with their advisor when selecting courses for the AS. This guide offers recommendations for transferable courses and is not intended to be a substitute for advising at SCC.
